Acknowledgements: The basic search and classifications in preparation for this index have been made by students of the Graduate School of Nanzan University: Igarashi Shinko, Nasa Toshitaka, and Murakoshi Yoshio. All their work was put into final form by our associate editor, Edmund R. Skrzypczak. The publication, finally, was made possible by a special grant from Nanzan University that greatly relieved our strained budget. I wish to thank all the persons involved, and Nanzan University, for their generous support.
